

中英文公司简介 / 中文

专注铸钢零部件 从客户图纸到加工成品

沃泰达成立于2005年，位于山东莱州，专注碳素铸钢和低合金铸钢零部件制造。自有模具、覆膜砂壳型铸造、热处理与CNC机加工相互衔接，为车桥、悬挂及其他机械零部件提供制造配套。

制造现场 / CNC机加工车间

2005

成立年份

6,000 t

年铸件产能（约）

核心制造能力

01 模具与覆膜砂壳型铸造

自有模具制造，结合客户图纸评审材料、铸造结构、加工余量与生产要求。

02 热处理与CNC机加工

自有热处理、数控车削和铣削能力，衔接铸件毛坯与加工成品。

03 钣金与焊接配套

激光切割、折弯及机器人焊接，配套相关零部件和焊接总成。

04 清理与表面处理

抛丸、喷漆及防锈包装等工序，按项目要求安排。

IATF 16949:2016

质量管理体系认证

首件报告 / PPAP

化学成分、力学性能、硬度、金相及尺寸检验，配有三坐标测量设备。首件报告、PPAP及材料文件按约定要求准备。

材料牌号、热处理状态、检验标准及交付文件在项目评审时确认。

代表性铸钢产品

上反作用杆支架

钢板弹簧座

悬挂支架

联轴套

代表性制造案例；新项目按图纸及质量要求评审。

01

BILINGUAL COMPANY PROFILE / ENGLISH

Cast steel components. Made to your drawings.

Established in 2005 in Laizhou, China, Wontide manufactures carbon and low-alloy steel components to customer drawings. In-house tooling, shell moulding, heat treatment and CNC machining serve axle, suspension and other mechanical applications.

MANUFACTURING FACILITIES / CNC MACHINING

2005

Established

6,000 t

Annual casting capacity (approx.)

CORE MANUFACTURING CAPABILITIES

01 Tooling and shell moulding

In-house pattern making and resin-coated sand shell moulding, reviewed against drawings and material requirements.

02 Heat treatment and CNC machining

In-house heat treatment, CNC turning and milling connect cast blanks with machined components.

03 Fabrication and welding

Laser cutting, press braking and robotic welding support related parts and welded assemblies.

04 Cleaning and finishing

Shot blasting, painting and rust-preventive packing are arranged to project requirements.

IATF 16949:2016

Certified quality management system

FIRST ARTICLE / PPAP

Chemical, mechanical, hardness, metallographic and dimensional inspection, including CMM measurement. First-article reports, PPAP and material documents are prepared to agreed requirements.

Material grade, heat-treatment condition, inspection standards and delivery documents are confirmed during project review.

REPRESENTATIVE CAST STEEL COMPONENTS

Upper torque rod bracket

Leaf spring seat

Suspension bracket

Coupling sleeve

Representative manufacturing examples. New projects are reviewed against drawings and quality requirements.
